anarchical leaders and authorities, as the representatives of the people, if labor goes to war with capital, it is not amiss to give a little sketch of them, their personality and their daily lives. This I have attempted to do.

The number of Anarchists in America it is impossible to give. The body is growing

larger and stronger every day. Fathers are educating sons to follow in their footsteps and mothers are implanting the seeds of Anarchy in the minds of their daughters.

What effect this teaching has upon the home life and children you can judge from the little I saw, Mr. Schwab's.

It has been said that the Anarchistic party is composed of Germans and beer. The following extract from a letter I received refutes this:

"I see you are to write about Anarchists. Will you not say that America is founded upon Anarchy? What were we but Anarchists when we threw the tea overboard? I wish to state, as it is claimed all Anarchists are foreigners, that in New York City there is an Anarchist club, composed of 160 members, every one of whom is a descendant of a Revolutionary ancestor. No man can be a member who is not. And we are Anarchists!"

Through an acquaintance who saw Parsons just before he was hanged I have obtained his (Parsons's) definition of Anarchy.

It is as follows: "Anarchy is a speculative philosophy. It is antagonistic to centralized power. It proposes the abolition of all authority, compulsion or force government."

Webster's definition of anarchy is this: "Anarchy: Want of government; the state of society where there is no law or supreme power, or where the laws are not efficient, and individuals do what they please with impunity; political confusion."

I stood at the heavy iron gate that keeps out those who wish to go into the "Tombs" and keeps in those who wish to go out.

Just within a man, fat, uniformed and expressionless, sat upon a chair which, by tilting against the wall, he had transformed from a quadruped into a biped.

"The man looked at me without the faintest expression of any kind. Two poorly clad mouse-colored men upon the curb looked wonderingly at me and then on beyond into the long, dark passage. A schoolboy, with his books under his arm, ran up the steps, and after one hasty glance through the iron bars and mother at me, ran on. A shapless girl, in plain black and looked longingly through the door, as if inside was some one for whom she cared.

"I want to come in," I said to the man.

"It's too late," he replied, in a voice that matched his lack of expression.

"But I have a note from Mr. Blake for the Warden," I urged.

"He's out, but his deputy's here, if he'll do," he informed me.

"He will do as well," I answered.

The gate swung slowly open and then changed behind me.

"Wants to see the Warden," the man called to a Grover Cleveland-looking official who sat behind an inner gate.

This official asked for my pass, looked it over lazily, handed it back and told me to sit down; that the deputy was at dinner.

I sat down and watched a man at work on a ledger; saw the girl I had left on the steps outside talking earnestly to the man at the gate, heard it being twice—once to admit a man prisoner and the next time to admit a girl.

When I was almost tired out with waiting the deputy warden came and instantly took me back to the women's prison.

"This young lady wishes to see Emma Goldman," he explained to the assistant matron.

"Do you want her brought here or will you talk to her through the gate?" she asked me.

"If I can go in to her, I prefer it; if not, please bring her to me."

"It is against the rules to let any one in among the prisoners," she said, and giving me a chair she went to bring Emma Goldman.

Do you need an introduction to Emma Goldman? You have seen supposed pictures of her. You have read of her as a money-destroying, capitalist-killing, riot-promoting agitator. You see her in your mind a great raw-boned creature, with short hair and bloomers, a red flag in one hand, a burning torch in the other; both foot constantly off of the ground and "murder" continually upon her lips.

That was my ideal of her, I confess, and when the matron stood before me saying, "This is Emma Goldman," I gasped with surprise and then laughed.

A little bit of a girl, just 5 feet high,

EMMA GOLDMAN.

The religious war so frequently suggested is an impossibility to-day, when all denominations meet in peaceful and harmonious conference.

Race prejudices, on which was hinged another thought of war, are rapidly disappearing, and those remaining are not strong enough to-day to make a man get or give a black eye.

As for a war between the East and West, we are far too level-headed for that. The West is our brother and we may have our little spats, but the one that strikes him a blow must fight us.

What remains? "The greatest of all causes, the cause most to be feared."

You hear its undercurrent as it breaks forth in thundering tones from time to time. Does it mean anything serious?

Ask the capitalist! Ask the thinker! Ask the labor unions!

JOHN MOST.

There is something brewing between capital and labor, between the masses and the classes, between the rich man and the poor. Who can tell what it is, what it will be, when it will come?

If it is war, who will lead the masses? Those who are to-day recognized as sympathizers, promoters and agitators.

And first among these are John Most, Justus H. Schwab and Emma Goldman.

They are devoting their lives to the solution of the social problem. They are earnest, sincere and tireless. They are ready to give liberty and life, if necessary, for this cause.

John Most has already spent nine years of his life in prison for preaching his theories, and he preaches as earnestly to-day as he did before his first term.

This means more than a mere fed, more than a desire for popularity, and I can point to the fact that there is no money in it.

John Most has a wife and a family, and he has a home, and he has a goodly amount of money.

Capitalists Will Compete for the Underground Road Franchise.

The exclusive news printed in The World yesterday that Cyrus McDonald, the Baltimore tunnel contractor, is prepared to guarantee the construction of the proposed New York Underground Road Transit road within three years, can raise the requisite capital and are ready to begin the tunnel as soon as the franchise is awarded to them, was discussed with interest yesterday.

It had the effect of bringing out another important piece of good news for those who have the cause of rapid transit at heart. This piece of news is that the five capitalists who recently approached a member of the Rapid Transit Commission through a New York firm will make a definite proposition to build a very fast railway. They are entirely responsible and reliable and they are bona fide competitors for the franchise.

William Steinway, chairman of the Rapid Transit Commission, expressed his gratification that the underground system first favored by him has appealed so powerfully to practical capitalists that there will probably be two competitors in the race for the franchise, a condition of affairs which raises the city out of the humiliating position of begging somebody to accept the franchise.

Though Mr. Steinway said that the Rapid Transit Commission has not yet received a proposition from Mrs. McDonald, the interview with Mr. McDonald, printed in yesterday's World, showed that the firm was confident of its ability to do the work and anxious to get the franchise. Mr. Steinway said that he knew of Ryan & McDonald as a responsible and successful company who had done tunnel work on an extensive scale, and that he thought that their proposal, as printed in The World, was very responsible.

Mr. McDonald really meant that he expected to raise the necessary money for carrying on the work by issuing bonds for the entire estimated cost. This is hardly on much more than half the estimated cost of such a project. However, we have not yet heard from them, and perhaps we would best wait till they send us their definite proposition.

Now, about the other firm which approached one of the members of our commission as already printed in The World. I cannot tell you the names of the five capitalists, as I have been told by one of the members of our commission, and as this firm has asked us to keep its name secret of course I cannot reveal it.

"I can tell The World, however, that we expect to get a definite proposition from them in a very few days. The parties are responsible and reliable in the highest sense of the word, and their action is positively bona fide. They mean business. They approached the commission through the New York firm to see whether we would grant certain modifications."

Nebraska Democrats Want Mr. Olney to Prosecute the Trusts.

OMAHA, Neb., Sept. 16.—The Democrats of Fillmore County, Neb., at their county convention yesterday passed the following resolution: "We approve of the efforts of the New York World in persistently calling upon Attorney-General Olney to enforce the provisions of the United States statutes against combinations and trusts that have been so long sliding competition in trade and oppressing the common people by maintaining high prices on the necessities of life."

DEATH PREDICTED IN A DREAM.

Farmer Layman Says His Dead Wife Warned Him and He is Preparing.

WARNED TO THE WORLD. CALLICOON, N. Y., Sept. 16.—Loy Layman, fifty years old, a prosperous farmer residing five miles from here. Some years ago his wife died and he has brooded over his loss ever since.

Mr. Layman says he had a dream last September in which his wife appeared to him and said she would join her on or before Nov. 7. Neighbors say Mr. Layman planted no crops this year beyond his needs up to Nov. 7. They say he has made his will, intends to supervise the digging of his grave and will order his coffin and burial clothes.

Mr. Layman's brother, it is said, predicted the time of his death. Recently John Currier tried to heal the farmer of rheumatism, but failed and they say he wishes them to discontinue their prayers in his behalf.
